

ALEXANDER McQUEEN – 2011/2012 EYEWEAR COLLECTION

The new Alexander McQueen sunglasses collection has a classic individuality and a non-conformist spirit, combining vintage inspirations in a contemporary and unmistakable luxe style. The latest eyewear models celebrate the brand's signature icons. The skull, a McQueen accessory motif, conveys a iconic appeal on the new styles. Natural wood, another unmistakable signature material highlights a contemporary feel and leather the collection's newest luxury element, underscores sophisticated references to the brand's ready-to-wear creations.

A self-assured declaration of style, these women's acetate sunglasses present a deluxe version of trend-setting square-shaped design, with the front faced with natural leather. The leather front combined with acetate temples creates a highly original effect in a palette of glamorous colours, such as dark brown/dark Havana, navy blue/horn and total black (mod. **AMQ 4189/S**).

Iconic and sophisticated, this unisex model embodies the brand's quintessence through skilful use of its unmistakable signature motifs. The skull is deployed as a decorative feature on the temples that has been crafted in wood, a natural material which runs through the Eyewear collections. The square shapes are highlighted by a bright metal profile around the lenses. The colour tones are distinctively refined and include black with rosewood, dark blue with walnut and damson with amaranthine coloured wood (mod. **AMQ 4187/S**).

A contemporary take on a classic style: these metal unisex sunglasses feature a double bridge with a delicate bar of natural wood, one of the collection's recurring materials. The metal details have a grained brush finish. Soft colour shades include blue with rosewood, pale gold with walnut, coral with rosewood and dark ruthenium with ebony (mod. **AMQ 4188/S**).

This feminine acetate sunglass has a vertical eye-catching grained metal detail on the front which echoes details from many Alexander McQueen accessories. Suitable for use with graduated lenses, these glasses are available in strong sultry colours, such as black, deep olive/old gold, havana horn/shiny brown (mod. **AMQ 4191/S**).

The Alexander McQueen eyewear collection is manufactured and distributed by the Safilo Group.
